

Alpine National Park

30th July, 2012

So much to see and do -
all over the Alpine
National Park

Cross Country skiing on the Bogong High Plains

Parks Victoria work closely with Falls Creek Alpine Resort to plan and groom cross country ski trails on the Bogong High Plains in the Alpine National Park over the winter period. The trails provide great options for beginner through to advanced cross country skiers to get out in the park and experience the beauty of the high plains in winter. Heading out around the Rocky Valley dam and up onto Heathy Spur is a great ski with spectacular views across the high plains and to Mount Bogong on a clear. Much of the groomed trail network is used for the Kangaroo Hoppet cross country race, so it's time to get your 'skates on' and practice

for the event on the 25th August!

New information signs at Harrietville

Some new signs have been installed at information shelters at Harrietville to replace old outdated signs. The signs have been installed at the Bungalow Spur, Bon Accord Spur and outside the Harrietville Museum. A new sign will be installed at the Razorback trailhead in the coming weeks.

Fainter Falls Walk

The walk to Fainter Falls is easy and spectacular - particularly at this time of year with good rainfalls. It is just a short trip up the Bogong High Plains Road, near Bogong Village. The Falls and the Pretty Valley

Branch of the East Kiewa River, a wild mountain river, are flowing really well at the

moment and well worth a stopover.
